

Progression of Skills: Geometry: position and direction

Nursery	Reception	Y1	Y2	Y3	Y4	Y5	Y6
<p>Geometry: position and direction</p> <p>Pupils should be taught to:</p> <p>Shows an interest in shape and space by playing with shapes or making arrangements with objects.</p> <p>Shows awareness of similarities of shapes in the environment.</p> <p>Uses positional language.</p>	<p>Geometry: position and direction</p> <p>Pupils should be taught to:</p> <p>They recognise, create and describe patterns</p> <p>Can describe their relative position such as '<i>behind</i>' or '<i>next to</i>'.</p> <p>Uses familiar objects and common shapes to create and recreate patterns and build models.</p> <p>ELG Children use everyday language to talk about position, distance, to compare quantities and objects and to solve problems. They recognise, create and describe patterns using the language of position and direction</p>	<p>Geometry: position and direction</p> <p>Pupils should be taught to:</p> <p>Describe position, direction and movement, including whole, half, quarter and three-quarter turns</p>	<p>Geometry: position and direction</p> <p>Pupils should be taught to:</p> <p>Order and arrange combinations of mathematical objects in patterns and sequences</p> <p>Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise)</p>		<p>Geometry: position and direction</p> <p>Pupils should be taught to:</p> <p>Describe positions on a 2-D grid as coordinates in the first quadrant</p> <p>Describe movements between positions as translations of a given unit to the left/right and up/down</p> <p>Plot specified points and draw sides to complete a given polygon</p>	<p>Geometry: position and direction</p> <p>Pupils should be taught to:</p> <p>Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed</p>	<p>Geometry: position, and direction</p> <p>Pupils should be taught to:</p> <p>Describe positions on the full coordinate grid (all four quadrants)</p> <p>Draw and translate simple shapes on the coordinate plane, and reflect them in the axes</p>
